They tell us that Alexander took to his bed and Uy there Umenting, crying out the name of CkHas and of Cleittis' sister, Lanice daughter of Dropides, who had nursed him: " What a fine gift for her nufting had he given her, now come to man's estate! she had seen her sons die fighting for him, and now with his own hand he had murdered her brother."* (Arrian, *Anabasis*, IV, 9, 3-4.
